Data protection information for Membership Application Form

General Data Protection Regulations 2018 – Permission for DATA storage & use.

The Committee of the Edinburgh Society of Model Engineers wishes to improve the management of information necessary to permit adequate control over membership records for the club, thus ensuring more effective running of the club.

To ensure this we wish to store data for each member in a private, computerised database.

Under the terms of the 1998 Data Protection Act, we can only do this with the individual consent of each club member. For this reason the consent form has been integrated in the membership application form.

Consent of existing members is being sought by requesting confirmation of the data currently held by the Club using a modified Membership application form.

The following undertakings are made by the elected officers of the Club:

1. The minimum amount of data will be held (see schedule below).
2. Data will only be held for as long as the individual remains a member of the Club.
3. Each member will have free access to all their personal data held at any time and will and always have the right to require changes or to withdraw consent for data storage.
4. The data held will never be disclosed to any third party except where indicated above i.e. disclosure only to the individual and to elected members of the committee.
5. The club will seek confirmation that stored data remains valid on a yearly basis (at membership renewal).
6. The Club will seek confirmation of consent to store data on a yearly basis.
7. The stored data will only be used for management of club membership and proper distribution of club related information.
